

I am writing with great concern over the LPFM stations being given priority over stations like K-LOVE on FM translators. The number of times in which the positive message that K-LOVE carries has ministered to people in our communities, is innumerable. I know of cases where people have been in serious states of depression and just the ability to have a positive and consistently loving message coming over the airwaves to them has turned them from thoughts of suicide to life. Our children benefit greatly in hearing words of encouragement, rather than the r to x rated things topics and songs on many stations. The lifeskills and character reinforcement that comes through stations like K-LOVE backs up and supports such programs as the the type the Rotary Club, the Girls and Boys Club, The Lifeskills programs in the public schools in Horry County(particularaly) elementary and middle school. We NEED all the positive, caring and compassionate programming possible here in our area, there is too much of the kind of input through media that sends the wrong messages to youth and adults alike. K-LOVE fulfills the responsible, caring, positive and compassionate programming, family friendly message that we as a community need to hear and know is always available to us 24 hours a day.

Thanks, Grace and Peace,

Rev. Sarah W. Branyon and the Bucksville Charge Churches
